

Cover Letter

Dear Hiring Manager,

I am writing to express my interest in opportunities related to Web Development. I have completed my BS in Computer Science from Virtual University of Pakistan and have developed a strong foundation in web development and programming.

My technical skills include HTML, CSS, JavaScript, Python, SQL, database management, and GitHub for version control and project collaboration. I have practical experience in developing responsive and user-friendly websites, working with databases, writing SQL queries, and managing web development projects. I am also familiar with debugging, problem-solving, and maintaining clean and organized code.

Through my academic projects and web development internship, I have gained hands-on experience in building websites and improving their functionality and user experience. I am passionate about learning modern technologies and continuously improving my development skills.

I am a motivated, hardworking, and detail-oriented individual who is eager to contribute to a professional development team. I would appreciate the opportunity to apply my knowledge, gain further practical experience, and contribute positively to your organization.

Thank you for your time and consideration. I look forward to the opportunity to discuss my qualifications with you.

Sincerely,
M Rehan Akram
